

Accord Software & Systems Pvt. Ltd.

Inspired to be Innovative

Accord Software and Systems Pvt. Ltd. SOFTWARE DEVELOPMENT PROJECTS APPRAISED AT CMMI LEVEL-5

19th July 2015, Bengaluru — Accord Software and Systems Pvt. Ltd.; Software Development Projects today announced that it has been appraised at Level-5 of the CMMI Institute's Capability Maturity Model Integration (CMMI)®. The appraisal was performed by **Software Quality Center LLC**.

CMMI® is a capability improvement approach that provides organizations with the essential elements of effective processes that ultimately improve their performance.

An appraisal at maturity level 5 indicates that the organization is performing at an “optimizing” level. At this level, an organization continually improves its processes based on a quantitative understanding of its business objectives and performance needs. The organization uses a quantitative approach to understand the variation inherent in the process and the causes of process outcomes.

ABOUT ACCORD

With more than 2,400 person years of experience in Avionics domain, Accord can assist you in all phases of development life cycle. Accord can offer quick ramp-up of team to meet your changing program schedules. Our excellent track record from the prestigious programs reflects our commitment to quality and schedule.

OUR TECHNOLOGY FOCUS

- Avionics Software and Systems Engineering
- Global Navigation Satellite System (GNSS)
- Embedded Real-Time Systems
- Digital Signal Processing (DSP)

*"Accord continues to thrive to sustain the "process culture" by nurturing an environment for improvement in processes, along with innovation in products and services. This explicit focus on quality assurance and quality control ensures process compliance whilst making processes efficient where possible, so engineers tend to also think about how processes can be improved systematically. Data analysis and Statistical methods facilitate the improvements. Being in a niche area such as Aerospace, this provides Accord's customers' a strategic advantage in being confident on the quality of processes that drive good quality products and services in a cost effective manner". - said **Kris Puthucode**, Carnegie Mellon Certified high maturity CMMI Lead Appraiser, who was the lead for the CMMI appraisal.*
